ANOTHER CASE OF THE "UNLOADED" GUN

LITTLE WILLIAM SNOW ACCIDENTALLY SHOT BY HIS BROTHER IN CASEY—LIVE NEWS FROM WEST END.

Houstonville, July 20. The old story of not knowing the pistol was loaded came to light again Wednesday afternoon when William Snow, the 10-year-old son of a prominent Casey county citizen, was shot and probably fatally wounded by his 13-year-old brother, Allen.

The boys were examining an old pistol which had been laid a way for some time, when Allen accidentally touched the trigger and the weapon was discharged. The ball entered the younger boy's cheek and he fell unconscious. Physicians were hastily summoned, but at last accounts had been unable to locate the bullet and held out but little hope for the lad's recovery. Allen Snow is said to be nearly distracted over the unfortunate affair.

SCIRE M'KECHNIE SAFELY HOME AGAIN

HAS BEEN QUITE ILL IN BONNIE SCOTLAND BUT IS BETTER—"LOG" OF HIS VOYAGE.

Squire and Mrs. James McKechnie have returned from their trip to Scotland, the birthplace and former home of the Squire, which he had not seen for forty years. The squire had a severe spell of illness while across the water and is about ready to agree that there is no place on earth like the old Kentucky home. He is still considerably "under the weather", but improving nicely. He sent the L. J. his "log" of the voyage coming across the Atlantic, which tells of his trip across as follows:

HOWARD BOUND

After a day of 24 hours at this place owing to the seamen's strike, we bid Liverpool adieu for a while at least. After a sojourn of 33 days in Scotland England, we or at least I, very reluctantly bring our tour to a close.

I had intended keeping our friends in Lincoln county, and the foreign lands acquainted with our travels because the Interior Journal goes to all ends of the earth but owing to illness I could not get around much and when I was getting around I didn't feel like writing. However, I have kept my promise better than some friends who promised to keep us informed of what was going on in Lincoln county, and the rest of the globe. The guilty ones know who is meant.

MONDAY MORNING JULY 3rd.

On board steamship Arabia. A beautiful morning till in sight of the East Indies. They are well educated very reserved and have been to Calcutta on passengers and mail for the United States, were delayed two hours doing this. I can't say yet what is the size of our family; will report after the roll is called.

This ship is not to be compared with the Mauretania, the ship we are on. Beautiful morning, a little foggy at times which calls for the fog horn. Beautiful evening and not much news.

They seem to get wireless dispatches but they do not give them to the passengers as the steamer Mauretania did as we went to England.

There has been five accidents on board since we left Liverpool Sunday, five different ones have had their limbs broken. Some of them slid and fell on deck others fell down stairs, and I hear it reported too much booze in some cases.

We are just a little over half way across the pond now, which means something like a ten days passage, while we went across in five days just the difference between a fast and slow ship, and of course the longer they take, the more liable you are to storms, and other calamities.

Formerly connected with the Glenn H. Curtiss Co., Mr. McCurdy has now a powerful organization of his own and is building his own machine. He is using the world famous Gnome motor, which holds all records in aviation for distance, duration, speed and altitude. The speed of the new McCurdy machine, which will be shown to the American people for the first time at the Blue Grass fair, is equal to that of

any of the foreign monoplanes. With it McCurdy can easily attain seventy-five miles an hour. With such a machine he will give demonstrations at the Blue Grass fair that will be not only thrilling to the spectator, but of very great educational value as well.

No other modern science is the subject of so much interest today as the effort to perfect aerial navigation. Among those engaged in this work, Mr. McCurdy holds a foremost place.

The feats which he has already accomplished have given him a reputation that is not confined to the American continent, but extends throughout the world. A nephew of Dr. Alexander Graham Bell, inventor of the Bell Telephone, Mr. McCurdy has been placed all his life in the closest touch with foremost scientific investigation, and his work with heavier-than-air machines has done much for the development of the science of navigation.

Perhaps best known among his accomplishments along this line is the flight made last winter from Tampa to Havana. It was the longest water flight in the history of aviation and proved beyond peradventure the absolute practicability of the aeroplane. In addition Mr. McCurdy was the first man to send a wireless message from an aeroplane, and he has made numerous other experiments and flights that have not only been spectacular, but have been of large service in the advancement of the science to which he has devoted his life.

Beginning Tuesday, August 8th, the second day of the fair, Mr. McCurdy will make several flights each day. He will attain an altitude of more than a mile and will remain in the air from thirty to forty minutes. On August 8th he will also make a flight from the grounds of the Blue Grass Fair association in Lexington to Winchester, the county seat of Clark county, eighteen miles distant. There he will alight for a few minutes to carry a communication from the officials of the Blue Grass fair to the mayor of Winchester, and with foremost scientific investigation, and his work with heavier-than-air machines has done much for the development of the science of navigation.

The management of the Blue Grass fair anticipates that these aeroplane flights will be considered by the people of Central Kentucky well worth the price of admission and will draw to the grounds record-breaking crowds. The flights will be arranged at such hours throughout the day that they can be witnessed by all. Those who come from a distance and are compelled to take early afternoon trains will have the opportunity to see these flights before being compelled to leave.

The fastest and most powerful of all American aeroplanes directed by the most skillful of American aviators is the attraction that will be offered during the week of the Blue Grass fair, August 7th to 12th.

Catarrh Cannot Be Cured
with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and one of the most serious internal diseases. Hairy Catarrh Cure is taken internally, and acts directly upon the blood and mucous membranes. Hairy Catarrh Cure is not a quick medicine. It has been used here for many years. It has been used in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the good properties of the bark of the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results. Sold by Druggists, price 75c. Take Hall's Family Pill for constipation.

**Laxative Sent
Free to Try**

It may be taken for granted that there is no family of any size that goes very long without needing a laxative. If you don't know of a good laxative, or the laxative you are using is losing its effect, we want to call your attention to Dr. Caldwell's Syrup of Peppermint, which thousands of families are using successfully.

We have scores of letters from mothers, and scores from prominent men saying they are using it personally and giving it to their families, men like Mr. C. K. Smith of the Traffic Clearing House, and Mr. Ark, and Mr. George B. Turner, a lawyer of Marion, Ky. The thousands of mothers who use it themselves and give it to their children would take too much space to mention.

The reason they prefer Syrup of Peppermint is that it is a mild, gentle laxative that does not grip the intestines and yet so mild that it can be given to children.

Dr. Caldwell will promptly forward a free sample bottle. Then, being convinced as others are doing, and buy the regular way of your favorite druggist.

Dr. Caldwell does not feel that his purchase of his remedy ends his obligation.

He has specialized in stomach,

liver and bowel diseases for over forty

years, and can give the reader

any advice on the subject free of charge.

All are welcome to write him.

Facts for Weak Women

Nine-tenths of all the sickness of women is due to some derangement or disease of the organs distinctly feminine. Such sickness can be cured—cured every day by

**Dr. Pierce's Favorite Prescription
It Makes Weak Women Strong,
Sick Women Well.**

It acts directly on the organs affected and is at the same time a general restorative tonic for the whole system. It cures female complaint right in the privacy of home. It makes unnecessary the disagreeable questioning, examinations and local treatment so universally insisted upon by doctors, and so abhorrent to every modest woman.

We shall not particularize here as to the symptoms of those peculiar affections incident to women, but those wanting full information as to their symptoms and means of positive cure are referred to the People's Common Sense Medical Adviser—1008 pages, newly revised and up-to-date Edition, sent free on receipt of 21 one-cent stamps to cover cost of mailing only; or, in cloth binding for 31 stamps.

Gentlemen:—
I have just returned from your
Texas lands and I am very much
pleased with the trip. I found every-
thing just as you represented it and
liked the land well enough to buy
some of it. I expect to go to my land
about Dec. 1st to spend the winter as
I don't think I could find a more de-
lightful climate in which to spend
the winter. Yours truly

TO Whom It May Concern:—

I have inspected the
territory in Southwest Texas and
find it to be all that is claimed for it
by the Texas Land Development Co.
Although the farmers in this section
were not through planting corn, I
found the first crop of corn cut and
in the shock in Texas. I talked with
a number of farmers and found all of
them prosperous and content and mak-
ing more money than it seems possi-
ble to make on a farm. The climate
was ideal and every man in our party
purchased a farm. Yours truly.

Terrible Affair at Burnside

George Ellis, of Greenwood, Whitney
county, and Thomas Hilton, of the
same place, are in jail at Somerset,
charged with shooting to death Magistrate
Thomas Gamin, of Greenwood,
and Marshal William Heath, of Burn-
side. The shooting was done in the
office of Marshal Heath, in Burnside.
Ellis, who is said to have been drunk
at the time, was arrested by his friend
Hamilton, and taken to the office of
Marshal Heath. There they found
Gamin, a Magistrate of Greenwood
and a near neighbor of Ellis. There
was bad blood between Ellis and Gamin,
but nobody knows what started the
row, nor will the survivors dis-
cuss it. It is only known that, within
a few minutes after Ellis and Hilton
entered the room there was a fusil-
ade of shot and Heath and Gamin
were found dead. The shooter nar-
rowly missed a shot but the Pulaski
county sheriff got them to Somerset
safely.

NOTICE OF SALE!

Lincoln Circuit Court.

August Bence, Plaintiff, vs. Fontaine
Fox Bobbitt, Defendant.

Pursuant to a judgment rendered in
the above styled cause at the May
term, 1911, of the aforesaid court,
the undersigned commissioner will on

MONDAY, AUG. 14, 1911,

County court day, at 1:30 o'clock, P.
M., in front of the court house door
in Stanford, Ky., sell at public out-
cry to the highest and best bidder
the following described real estate in

Lincoln county, Ky., to-wit:

A tract of land situated about two
miles from Crab Orchard, Ky., on the
Crab Orchard and Somerset road
bounded on the North by the lands of
James Willard; on the East by the
lands of James Clark, on the South
by the lands of G. W. Guest, and on
the West by the Crab Orchard and
Somerset road, containing sixty, (60)
acres more or less.

Mr. King says it looks like a cy-
clone had passed through his corn and
tobacco. Mr. James Beazley of Lan-
caster was at the Bratton pond fishing
he interfered and had the young men
arrested their trial set for Thursday.

T. C. Rankin bought a pair of mules at
Danville Monday. We didn't learn
the price.

The purpose of said sale is to satisfy
a judgment rendered in favor of
plaintiff against the defendant for the
sum of \$100, with six per cent interest
from Aug. 10, 1908 until paid subject
to a credit of \$10 paid March 10,
1911, and the costs of this action, es-
timated at \$35. This July 10, 1911.

J. N. Sloan at Bryantsville, Sunday.

C. D. and J. W. Stigall, of Somer-
set were up to see their sister Mrs.
J. C. Rankin Sunday.

Mr. Everett Stone is visiting here
this week.

Last Thursday evening three young
toughs came to Jas. Beazley's ten-
ant on R. E. Bratton's place and began
to abuse the family. They all got
scared and ran away from the house.

Mr. Beazley was so badly scared that
he ran to Mr. Bratton's to get him to
protect him. And he says he don't
know what happened after he got to
Mr. Bratton's but he thinks, he ran
one way and Dick the other, he lost
his hat and shoes.

Mr. King says it looks like a cy-
clone had passed through his corn and
tobacco. Mr. James Beazley of Lan-
caster was at the Bratton pond fishing
he interfered and had the young men
arrested their trial set for Thursday.

IN MEMORIAM.

In memory of John Bruce, infant
son of Mr. and Mrs. Pete King, who
died June 29th 1911 at 6:30 A. M.
of a complication of troubles, aged 6
months. All that loving hands could
do to save him was done, but God
knew best, and took our baby home,
to dwell with Him. He was too good
and pure for his earth. Our home is
so lonely without our baby. He was
such a bright light in our home. No
one knew him, but to love him, it was
so hard to give him back to God who
gave him.

But I have a thought, my baby,
And it soothes the soul oppressed,
To a home beyond the river

You have gone to sweetly rest;
And I have a faith God gives me.
While I journey, weary, here,
If I gain a home in Heaven

I shall meet my baby there.
